

Case Study - Hospitality

Carluccio's Italian Restaurant - London

Project Specifications

Product Specified: NTEX294

Colour Specified: Black

Sector: Hospitality

Project Description

The Genesis NTEX range is an Aluminium Nosing with Carborundum filled inserts that make it extremely durable and suitable for all conditions.

The range is available in any array of widths and carborundum infill colours. Its exterior capabilities and anti-slip properties along with the required 222mm width made the NTEX294 a perfect choice of Carluccio's restaurant and the Contracts team at Multiflor Co Ltd who completed the installation in a busy Central London location.
